UL LLC does not keep record of the trade names under which the manufacturer markets a given product. However, when a manufacturer produces more than one product under a given product category, the products are differentiated by a type designation agreeable to the product manufacturer and UL LLC. This type designation shall appear in the proximity of the Classification Marking.

In addition, it should be understood that the Classification Marking of UL LLC on the product is the only method provided by UL LLC to identify products produced under its Classification and Follow-Up Service Program.
