Attention: John Swindlehurst

Subject: Project R26176 08CA57346

Dear Mr. Swindlehurst:

This has reference to the work completed under Project 08CA57346 regarding the promulgation of new UL Fire Resistance Designs. These new designs include the identical product designations and installation practices with the exception of including a change of the identification of the Mastic and Intumescent Coating Materials as shown below:

<u>Previous Type</u>	<u>New Type</u>
Type SprayFilm WB2	Type PS2
Type SprayFilm WB3	Type PS3

The identification of the new UL Fire Resistance Design Nos. vs. the old Design Nos. are shown by the attached Illustration.

Further, we confirm that the commercial brand names used by Cafco and Promat for the products are as listed below.

<u>Type</u>	<u>Name</u>
PS2	Cafco SPRAYFILM WB2 or PROMAPAINTE SC1
PS3	Cafco SPRAYFILM WB3 or PROMAPAINTE SC2

Very truly yours

Kenneth Rhodes
Senior Staff Engineer
Fire Protection Div.
